You can get their names and contact details by calling **01276 707100** for SHBC or **08456 009 009** for SCC, or by consulting their websites.

At the moment, there are no Liberal Democrat Councillors representing Frimley (though one lives in Frimley), but we have Councillors in Heatherside, Parkside and Frimley Green who would be happy to help.

There have been suggestions over many years to improve the environment in Frimley centre either by restricting traffic to one direction only through Frimley High Street, or even to make the High Street a pedestrian-only area.

In May 2005, Frimley High Street was closed off from the railway station onwards to allow the replacement of gas mains. This action effectively pedestrianised a major part of the High Street for a period of three weeks.

During this period, buses were diverted, and traffic was forced to find other routes. In particular, queues built up on the Frimley bypass, especially in the morning rush-hour.

Frimley Lib Dems are interested in your views about this:

- Do you feel the disruption to local traffic was such that it proved that pedestrianisation should never be considered for Frimley?
- Do you feel that Frimley High Street became a considerably nicer place to be for that period, and you would favour the idea of making that closure permanent?
- Do you feel that some half-way house would be the best solution, with one-way traffic only though the High Street?
- Or do you take some other view entirely?

Please let us know, by ringing one of the above options, or writing with your views to the Freepost address given below.
